This permit is issued subject to all prior rights on the source. Althor the full statutory amount of 1.0773 c.f.s. of water, for the total acreage of land proposed to be irrigated, is granted the right eventually acquired by any certificate issued under this permit will be limited to the statutory allowance of water for the area of land not actually irrigated under permits Nos. 3550 and 3551, under

which a full water right has already been granted for this land.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
